

# Vote Tuesday! One Vote Has Decided Elections

By CHARLES E. CHAPEL  
 Assemblyman, 46th District  
 Be sure to vote on Tuesday, Nov. 6, because your vote is important. Our secret system of voting is our fundamental form of insurance for our freedom as individuals and our dignity as men and women. It is the foundation of protection against alien political philosophies that seek to destroy our American concept of a government of laws and not a govern-

ment of tyrants. Your vote is your passport to freedom. Guard it well!  
 Empires, kingdoms, and republics have toppled; new states created — all because of one vote. Vital issues directly affecting every man, woman and child in America have been decided and candidates have been elected or defeated — all because of one vote!

SEVERAL YEARS AGO, one vote caused the political downfall of a member of congress from California who had served many years. He was seeking re-nomination on his party's ticket in the primary election and he had only one opponent. Each of the two candidates of the same party received exactly 10,429 votes. In accordance with the California Constitution (at least as it was followed at that time), the two can-

didates drew lots in the presence of the Secretary of State. The incumbent congressman lost the draw. His opponent won the draw, and received his party nomination.  
 The irony of this true story is that the incumbent congressman's secretary was too busy typing letters to the incumbent congressman's constituents to go to the polls and vote for him. If his own secretary had

voted, he would have received his party's nomination.  
 ONE MORE VOTE in each precinct in California would have elected Chief Justice Charles Evan Hughes as President of the United States in 1916. President Woodrow Wilson won California by a very slim majority and yet it was enough for him to be re-elected to the Presidency of the United States for a second term. Chief Justice Charles Evan Hughes lost the Electoral College vote by twenty-three (23) votes. California's electoral votes would have made Hughes President.

Rutherford B. Hayes, 19th President of the United States, who was President from 1877 to 1881, became President because of the vote of one crippled man who was taken in his wheel chair to the voting place by an Indiana congressman at the general election. The congressman was elected by receiving one vote more than his opponent. If he had not taken the man in the wheel chair to the voting place, he would not have been sent to congress, and it is an irony of history that the vote of one Indiana congressman caused the election of Rutherford B. Hayes.

RUTHERFORD B. Hayes was the Republican candidate. Samuel J. Tilden was the Democrat candidate for the Presidency. The votes at the general election were very close and the returns from South Carolina, Florida, Oregon, and Louisiana were the subject of a bitter argument between the two parties. After much bickering, it was decided that the contested returns be referred to an Electoral Commission, created by the U. S. Congress. The Electoral Commission by a vote of 8 to 7, decided the contested returns in favor of the Republicans, hence Hayes was declared elected on March 2, 1877.

The above facts are absolutely accurate. Personally, I do not remember whether the congressman who won by the vote of the man in the wheel chair was a member of the Electoral Commission, or was the deciding vote in selecting the members of the Commission, but in either event the election of Rutherford B. Hayes as President of the United States was actually decided by the single vote of that man in the wheel chair.

THOMAS JEFFERSON, when he first ran for President, received the same number of votes in the Electoral College as his opponent, Aaron Burr. John Quincy Adams, as candidate for the Presidency, received 84 electoral votes, but there were two other candidates and none received a majority. In the case of both Thomas Jefferson and John Quincy Adams, their cases were referred to the U. S. Congress and each of them became President by only one vote! Remember, your vote is important! Please vote on Tuesday, Nov. 6. Vote as you please, but please vote!

## Location Cited by Buyers Of Pacifica Near Walteria

Results of a recent survey of early buyers has shown that location of the "Pacifica," own your own cooperative apartments, at 24065 Ocean Ave., has proved a strong factor in their decision to buy, stated Raymond T. Burns, Pacifica sales manager.

In addition to the ideal year round climatic conditions Pacifica has as an additional advantage the Walteria Park and library situated immediately adjacent to the project.  
 BUYERS also indicated another sales feature was that the surrounding neighborhood most closely resembled the true residential community not normally found in similar cooperative apartments.  
 Pacifica Cooperative Apartments offer spacious one and two bedroom residence apartments featuring seven floor plans and four color schemes from which to choose. Wall-to-wall carpeting, draperies, complete built-in appliance center, FM music and intercom system in addition to the central garden courtyard will be provided. Prices range from \$14,495 to \$17,950 and a reservation deposit of \$120 reserves any residence apartment until occupancy.

Arnold White and Assoc., Interiors, have completed the furnishing and installation of the model apartment which is now available for inspection. Sales personnel are available

at Pacifica daily or, information may be had by calling FR 2-1917, Pacifica Sales Offices.
